EXPERIENCE HIGHLIGHTS

Dealer Tire - Cleveland, OH

Associate Web Software Engineer January 2020 - March 2020

- Contributed to a new Dealer Tire project initiative with a focus on creating robust and reusable code
- Worked with SQL Server Management Studio to interact with the database to create web services using the Go language and Go Clean architecture
- Implemented early stages of the application's UI to show stakeholders during the development process
- Consulted with peers to determine the best course of action for the global styling throughout the new application and then executed the plan of action

Dealer Tire - Cleveland, OH

Associate Front-End Web Developer January 2019 - December 2019

- Transformed designed UX/UI mockups into interactive user interfaces
- Improved web functionality by correcting any identified bugs in the software
- Tailored user experience with responsive mobile design
- Developed and tested content adhering to multiple client brands
- Collaborated with back-end developers to accomplish shared objectives
- Carefully deployed code through automated and manual processes from QA/Staging environments to higher levels, mainly to production

Dealer Tire - Cleveland, OH

Business Analyst Intern, summer internship 2016, 2017

- Investigated and recommended enhancements for IT new hire preparedness
- Organized and lead a team of IT interns on a project involving voice assistant technology
- Reorganized the IT department's JIRA web task tracking tool
- Provided quality assurance for dealer's website functionality
- Managed processes for website design projects to deliver client brand satisfaction
- Created regression testing reports for a project in development
